# Dating process at malonususipazinti.lt

Pažintys Ir Santykiai. Išmintingi Patarimai Bei  
Mokymai Ieškantiems Ir Radusiems

I did quick draft version of slides and will update it with descriptions in a future when needed.

All these steps are relative to client's needs: some need all, some need only parts of it.

In a year 2004-2005 I was working with Speeddating project and took a lot of experience from it. But now I do dating process differently - our process should fit needs of most clients - not only those who search in the real World, but first of all those who use dating apps.

We study and monitor almost 100 dating apps.

Also we hugely upgraded modern rules of dating including a lot of latest discoveries and also including classical old school dating rules that work everywhere.

There also are much more improvements. And in a future we wish to start our own dating app with an Artificial Intelligence technology as must.

Our process consists of 3 large phases and many small steps

Depending on client we can open these details or just ask questions using this set of phases and smaller steps

Preparation is everything. Janis Spindel, VIP  
dating expert

Successful dating starts and ends within our  
mind, i.e. how we approach the process, how  
positive we are and whether we have a dating  
plan. Bela Gandhi, dating expert, Chicago

We dramatically speed up the dating process  
- people get matched in months instead of  
3-5 years or more.

## Phases

1. **preparation** - largest and most important phase, where we put approx 80% of our effort;
2. **search** - online, IRL or both;
3. **communication** - contact and the rest, including choosing the One.

# **Preparation. Phase-1**

## Checking motivation

We will find out how strong the desire and maturity is to seek and start a relationship. This is essential for both the client and us, as it determines the speed and quality of the whole dating process.

We will also find out if the person has let go of the past, because without this it is impossible to start a new relationship.

# Game rules and plan

Why do we first get to know the real rules of modern dating?

Dating becomes a wonderful game when we have at least a minimal knowledge of the real rules of modern dating.

The real rules of modern dating - which you need to know at least a minimum before you start - make dating a wonderful game. Getting to know the rules;

# **What will I give, what is my value (my positive and negative qualities)?**

We will help you to make a self-assessment to find out your real value on the dating market - who you really are, your pros and cons from the point of view of your other half. We will make a self-description (a list of personal qualities) for your dating profile. We will clarify what your dating goal is and your maturity to build a relationship.

Here we do background check

# **What will I take or what values, what qualities am I looking for in person I search for?**

During the consultation you will fill in a questionnaire-test to help you find out what are the most important qualities of a person (or people, e.g. friends) that you really need, and what is the value range of the dating market? We will make a portrait of the qualities of the person you are looking for and purify it at least three times.

# Improvement, upgrade the body, feelings or mind

Maybe you need to improve your health, your teeth, lose some weight, go on a diet, get rid of a bad habit, gain discipline, better hygiene, or get to bed on time? Maybe you need to buy better clothes, consult an image specialist, get your hair done?

Maybe client needs to read a book about relationship psychology or go to self esteem upgrading workshops?

## Tests & final selection from the pool of pretenders
